

Revision in CalOMS Data Dictionary V1.01

- Enhanced the description of the exception for reporting CalOMS data for SACPA clients on page 1.
- Copied the questions associated with each data element from the Data Matrix to the Data Dictionary.
- Corrected the formatting of the header for item SYS-3 Report Month on page 95.
- Modified the definition of the Form Serial Number (TRN-3) on page 6 to provide clarification on the generation of these numbers. Modified the Allowable Values for this field on page 7.
- Changed the “Special Services County Code” to “County Paying for Services”. This field is to be used for situations where there is a special services contract in place between two counties and where there is an informal agreement between a county and a provider in another county to provide services. Please see the definition of ADM-10 on page 35.
